

MEMBERSHIP IN THE GSLSSC

Welcome to the Membership Page of the *Official* GSLSSC website! On behalf of all the members of the GSLSSC we would like to say THANK YOU for taking the time to visit our website and for your interest in our Club. We hope that you enjoy your visit to our website and that you will visit it often for the latest news about the GSLSSC.

The GSLSSC welcomes ALL individuals. Everyone is welcome to attend meetings and events. **It is not necessary to seek membership in order to attend and participate in functions.** We understand that not all individuals who visit our website and/or attend our meetings and/or functions will be interested in seeking membership. Again, you are welcome to attend regardless of your membership status.

Membership in the GSLSSC is only required if you wish to vote, hold office or be eligible for any awards and/or benefits that are provided for members only.

The GSLSSC is a working Club, and all of its activities are supported thru the voluntary efforts of its members. Each member is expected to contribute his/her fair share in the activities of the club.

Our members, like our dogs, are multi-talented and we believe that you will find most of us more than willing to share our interests and insights with you.

Interested in becoming a member? The first step is to attend a meeting. All prospective members **MUST** attend a minimum of 3 meetings **BEFORE** they can apply.

If after getting to know us you feel that you would like to become a member of the GSLSSC, please contact the Membership Chair – Cindy Onder. (You will no doubt meet her at the first meeting you attend.)

For any questions regarding membership, the application process, or to obtain a current Membership Application please contact Cindy. She can also answer any general questions regarding the GSLSSC that you may have. You may reach her:

- in person at a meeting
- via email at SheltieGirl322@msn.com
- via phone at 314-740-0485.

Thanks again for your interest. We look forward to getting to know you at a GSLSSC function!
